

STATE OF THE ART TECHNOLOGY  
CAN LOOK SO GOOD

## AirWave1 - the air cushion system 4.0

FLÖTER introduces the next generation of air cushion machines: the AirWave1. Quick, quiet, connected to Bluetooth, modular and cost-efficient. Light at only 5.6 kg, the AirWave1 delivers powerful performance. It supplies up to 4 workstations with reliable air cushions - made in Germany. It is programmable and can be seamlessly integrated into FLÖTER's system technology. Whether small cushions or wide pads, the AirWave1 is a top performer in all categories. The intelligent system features "one-key" technology with a patented outstanding design.

Weight (kg)	5.6
Output (m/min)	8 - 10
Quilt production	yes
Chain production	yes
Film thickness ( $\mu$ )	12 - 30
Meters/roll (lm)	up to 3000
Standard roll formats in stock	30

Rev. 10\_2020

PILLOWS AND CUSHION PADDING

**AirWave1 – flexible and modularly expandable**

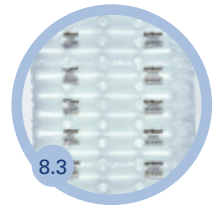

**Your advantages at a glance:**

- Modern, premium design
- New ergonomic program functions
- Lock function
- One-key technology
- 4 program locations
- Programmable power-save mode
- 5.6 kg weight
- CE and RoHS approved
- 8 - 10 m/min. output
- Extremely quiet ≤ 60 dB
- Universal power supply 115 - 230 volts
- Bluetooth control

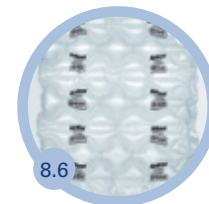

**Examples from our cushion range:**

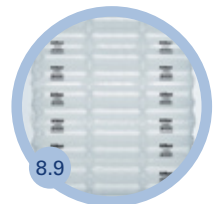

(100x210 – 250x280 mm)

(4 chambers 420 mm)

(Quilt large 420 mm)

(3 chambers 420 mm)

Standard (20 μ)

ECO (15 μ)

Super ECO (12 μ)

ESD (20 μ)  
antistatic

Climafilm (20 μ)  
Climate neutral

BIO (20 μ)  
Home-compostable

Heavy Duty (26 μ)

**Also available in > 50% post consumer recycled and made 100% climate neutral – ClimaFilm**
